2009 OASIS C and ICD-9-CM and OASIS Coding & HCS-D Exam Review Course

September 23rd - OASIS C
September 24th - ICD-9-CM and OASIS Coding: Moving Beyond the Basics
September 25th - HCS-D Exam & Recertification Exam

♦ Are you still struggling with the 2008 OASIS changes and achieving consistency in assessment from nurse to nurse?

♦ Are you certain that your agency’s case mix weights and reimbursement aren’t negatively impacted because your clinical staff is uncertain or have a lack of understanding of the more difficult OASIS questions?

♦ Has the increased focus on coding kept your nurses in a dither?

♦ AND NOW, you have a whole new reason for panic as the major revision of OASIS...called OASIS C...is set for implementation on January 1, 2010.

In addition to KHHA’s usual fall offering on ICD-9 Coding and the opportunity to take the HSC-D coding certification exam, we are pleased to offer a special deal...an OASIS C training based on the final release of the document and a Coding training back-to-back. Take advantage of this chance to reduce your travel costs and get a special combined registration fee. Workshops are September 23rd & 24th. Pick one or both sessions. KHHA will proctor the HSC-D exam on the 3rd day, September 25th. Those wanting to sit for the OASIS certification exam can do so on-line and pay a reduced fee if you attend the KHHA OASIS training session.

This special two-for-one session is offered September 23rd & 24th at one of Lexington’s nicest shopping and dining locations-Lexington Green. Lodging rates are great.

Check out the details in the attached brochure.

Registration Deadline is Sept 16th. Lodging Deadline Sept. 9th.

Questions: Contact KHHA at (859) 268-2574 or (800) 832-4036

OASIS C
Wednesday, September 23rd

Schedule at a Glance (ET)
7:30 a.m. Registration begins
8:30 - 4:30 p.m. OASIS Training

OASIS C
Course Content & Objectives

Content:
OASIS documentation is a critical facet of home health care management. It is the source of data that defines payment and quality outcomes. Clinical staff must be knowledgeable and proficient with OASIS requirements. January 1, 2010 is D-day for implementation for OASIS C which is a major revision of the OASIS document. The changes include improving clarity of OASIS items, limiting items that don’t relate directly to payment, quality of care or risk adjustment, deleting some items that are outside the control of home health providers, and improving the use of the form to measure quality care. The final version of OASIS C has changes in content, organization, and wording of measures. You have been hearing all year how OASIS C will impact your clinical processes...now it is time to focus on the actual use of the form.

OASIS Objectives:
Upon completion, participants will be able to:
1. Discuss the regulatory requirements for initial and Comprehensive Assessments.
2. Describe the intent and guidelines for OASIS items to ensure the most accurate response.
3. Discuss accurate responses to various OASIS questions.
4. Describe the six official ways CMS uses OASIS data.
5. Describe potential impacts on outcomes related to changes in OASIS C.

Target Audience: RNs/LPNs, Therapists, Clinical Supervisors, Quality Improvement, Medical Coding Staff & Billing Staff involved with coding. Clinicians as well as non-clinicians involved in the completion and/or review of the OASIS assessment and code assignment for the home health provider can benefit from attending this training.

Registration Deadline: Wednesday, September 16th
Lodging Deadline: Saturday, September 9th

ICD-9-CM and OASIS Coding & HCS-D Exam Review Course
Home Care Coding: Moving Beyond the Basics
Course Content & Objectives

Content:
This class assumes participants have a basic knowledge of coding conventions and will focus on selected topics with lots of case examples. Topics include the October 1, 2009 ICD-9 code changes that will impact home care providers. Focus will be on coding conventions in more complex coding situations, the correct application of coding for home health OASIS, understanding of home health payment diagnoses, and how to ensure you capture points for resolved case mix diagnoses when providing aftercare and to increase risk adjustment outcomes.

Coding Training Objectives:
Upon completion, participants will be able to:
1. Describe guidelines for coding orthopedic and therapy situations.
2. Describe the steps to take in using the Alphabetical Index Neoplasm table.
3. Discuss the proper sequencing of diagnosis codes based on the focus of care in a variety of situations involving neoplasms.
4. Discuss correct coding for a variety of cardiopulmonary situations.
5. Discuss code selection for various types of wounds.
6. Explain the correct use of complication codes.
7. Explain the four rules of sequencing late effects.
8. Discuss the proper coding of adverse effects versus Poisoning using the Table of Drugs and Chemicals.

HCS-D Exam Objectives:
Upon completion, participants will be able to:
1. Describe at least three tips for taking the HCS-D exam.
2. Discuss sample topics that will likely be covered on the HCS-D certification and re-certification exam.

Participants MUST bring a current ICD-9-CM Coding manual to class!

Home Care Coding:
Moving Beyond the Basics

Workshop Information

Presenter: Judy Adams, RN, BSN, HCS-D, COS-C
Judy is a Clinical Consultant with Larson Allen-Cherry Bekaert LLP, specializing in clinical and operational consulting for home care and hospice organizations. She has over 30 years of experience as a nurse executive and consultant. Her nursing experience includes educational, supervisory, and administrative staff positions in a variety of settings. Judy has held a number of positions with a large home health agency and worked as the Special Projects Coordinator for the North Carolina Association for Home Care for over eight years. With her experience working closely with regulators, third party payors, occupational licensing boards and home care providers on numerous issues, her technical expertise spans virtually any aspect of home care services.

HCS-D Continuing Education:
The day-long coding workshop has been approved by BMSC for 6.5 CEUs.

Nursing Continuing Education:
The OASIS C training session is approved for 7.8 nursing contact hours. Provider offering number 5-0020-12-096. The Coding training session is approved for 7.8 nursing contact hours. Provider offering number 5-0020-12-097. This session is also approved by BMSC for 6.5 contact hours. Approval number BMSCKHHAhziha85. The HCS-D exam review session is approved for 1.8 nursing contact hours. Provider offering number is 5-0020-12-098. KBN provider expiration date 12/31/12. Approval of an individual nursing continuing education provider does not constitute endorsement of program content.

Exam for Homecare Coding Specialist – Diagnosis (HCS-D)
KHHA members are entitled to a discount on the Exam fee. Registration for the Exam is separate from KHHA registration. Complete the separate BMSC Exam registration form and send with payment information directly to BMSC. Information about the certification can be obtained at http://www.medicalspecialtycoding.com. The registration forms, a test outline and sample questions are also on the website. Just click on the Events page to download the documents.

ADA:
KHHA wishes to take steps required to ensure no individual with a disability is excluded, denied services, segregated or otherwise treated differently because of the absence of auxiliary aids and services. If you need any of the auxiliary aids or services identified in the American Disabilities Act in order to attend this program, please call (859) 268-2574 or write to the KY Home Health Association, 154 Patchen Drive, Suite 90, Lexington, KY 40517.
